

August 20, 2017

To the Tenants and their members of the Ice Garden,

The summer has finally began to wind down, the kids are heading back to school and we are days away from ICE being put down at the Ice Garden. As we begin to turn the page, I wanted to pass a long a message to all of the families and players who utilize the Ice Garden. What an exciting chain of events that have been occurring this summer following the announcement that the Rostraver Ice Garden would be KRAFT HOCKEYVILLE™ USA 2017.

The transformation began back in May and has continued throughout the summer. A Local Organizing Committee (LOC) was formed, comprised of members from each of the main organizations that call the Ice Garden home. Owner Jim Murphy and his team, along with the LOC have been diligently working around the clock to plan a four day celebration and to see an abundance of change inside the arena. The plan is to open the doors for ice rental on Tuesday, September 5th. Kraft Heinz, the NHL®, and Kraft Hockeyville™ will begin to move into the Ice Garden for the four day celebration the week of September 18th.

Mr. Murphy and his team have been hard at work all summer making a number of upgrades (some that can be seen to the naked eye and some that were major infrastructure upgrades). Regardless, all of the work that has been completed and the projects that are ongoing, the Ice Garden should be a welcome site for everyone. As you enter, you'll notice improvements to the lobby, mainly a new floor. As you walk into the arena, stop and listen, the buzzing noise is gone as the arena is now 100% LED. You will notice the aesthetics of the arena have been updated, the locker rooms (which are currently being updated) will be a welcome site for all of the players. As we continue to move towards Kraft Hockeyville™, you will continue to notice upgrades being completed. We ask for your cooperation and patience as these projects are completed while the building and ice sheet are operational. We apologize in advance for any inconveniences.

The upgrades are something that we will benefit all of us for years to come, however we have a four day "CELEBRATION" coming up and we hope that everyone will take part. The four day celebration will be highlighted by a number of events throughout our local communities. In addition, the "Mon Ice Project", a nonprofit, has been formed to "Build our future, on and off the ice." Most of the events of Kraft Hockeyville™ will benefit the Mon Ice Project, which is intended to support local learn to skate and learn to play programs as well as provide scholarship opportunities to our student athletes. On the next page, you will find the LOC's list of events with more information being released daily through our social media accounts and website:
